# Yaseen Ahmad

## Full-Stack Developer

Peshawar, Pakistan | +92 318 937 0042 | yaseenahmad.exe@gmail.com | linkedin.com/in/yaseen-ahmad-489967280 | github.com/MrYaseen0 | yaseenahmadexe.vercel.app

## PERSONAL STATEMENT

Final-year Software Engineering student at CECOS University, Peshawar, building full-stack web applications with Next.js, TypeScript and React. Project work ranges from a bilingual AI booking assistant to complete business websites with admin dashboards, published as open source with documentation. Currently working on a final-year research project on AI-assisted requirement-to-test traceability. Looking for a junior software engineering role.

## KEY SKILLS

| | |
|---|---|
| **Languages** | TypeScript, JavaScript, Python, Java, HTML, CSS, SQL |
| **Frontend** | React, Next.js (App Router), Tailwind CSS, Framer Motion, responsive and accessible UI |
| **Backend** | Node.js, Express, Flask, REST API design, JWT authentication |
| **Data** | PostgreSQL, SQLite, MongoDB, Prisma, SQLAlchemy, Supabase (Postgres, Auth, Storage) |
| **AI & Data** | LLM integration (Groq, Llama), prompt design, OpenCV / face-recognition |
| **Tooling** | Git, GitHub Actions CI, Vercel, Docker, Vitest, Linux (Kali), Android services |

## PROJECT EXPERIENCE

### Full-stack web projects - self-directed and university work, Peshawar

- Design, build and deploy full-stack web applications end to end, spanning education, health and local business, with public source and documentation on GitHub (29 public repositories).
- Built the public website for the Quality Enhancement Cell (QEC) of CECOS University - nine public pages including a searchable focal-persons directory, events and reports sections - live at qec-page.vercel.app/qec.
- Bitanas Salon, Peshawar - a business website with online booking, gift cards, loyalty and referral programme, live price calculator, admin dashboard and an on-device AI chatbot concierge (public repo).
- Game Booster, an Android app (Java) for distraction-free gaming sessions - call auto-reject, notification removal, app blocker and a background watchdog - with source and versioned APK builds published on GitHub.

## EDUCATION

### BS Software Engineering (Final Year) - CECOS University of IT & Emerging Sciences, Peshawar

- **Final-Year Project (team of three, supervised; in progress):** AI-Assisted Requirements Analysis, Test Generation and Traceability Platform - a retrieval-augmented system designed to recommend requirement-to-test trace links while keeping a human reviewer in final control. Planned stack: Flutter Web frontend, FastAPI/Python backend, PostgreSQL, hybrid BM25 + semantic-embedding retrieval.
- **Software Architecture & Design coursework:** Automated Documentation Generator - a generative-AI documentation engine that produces inline comments and API documentation across five languages and integrates with CI/CD as living documentation.

## SELECTED PROJECTS

### AI Clinic Receptionist - open-source bilingual booking assistant (live demo: ai-clinic-receptionist-gold.vercel.app)

- English + Roman Urdu chatbot that answers questions on doctors, fees and timings and books appointments conversationally, with booking IDs and an admin dashboard.

**Next.js 14 · TypeScript · Tailwind CSS · Groq (Llama 3.3 70B) · MIT licence**

### GitNova - gamified learning platform for Git and programming

- 70 interactive levels with an in-browser simulated Git terminal, visual commit graph, SM-2 spaced repetition, achievements, leaderboards and verifiable PDF certificates.

**React 19 · TypeScript · Node.js/Express · Prisma · PostgreSQL · JWT · Vitest (75 tests) · GitHub Actions**

### YTUBE - full-stack YouTube-style video platform

- Accounts, channels, uploads with progress tracking, likes, comments, subscriptions, watch history and a full admin dashboard with moderation queue and audit log.

**Next.js 14 · TypeScript · Tailwind CSS · Supabase (Postgres, Auth, Storage)**

### StudyFlow - academic planner for university students

- Deadline tracking, course manager, GPA calculator with what-if targets, drag-and-drop weekly planner, Pomodoro timer and a study-buddy chatbot.

**Next.js 16 · React 19 · TypeScript · Tailwind CSS 4 · Prisma**

### IronLife Gym Manager - gym management system

- Member registration, payments and real-time analytics dashboard with offline support; Python Flask REST API over SQLite with SQLAlchemy ORM.

**Python · Flask · SQLAlchemy · SQLite · JavaScript/Bootstrap frontend**

### Face Recognition Attendance System - computer-vision attendance

- Automated attendance marking via facial recognition with admin and student portals, CSV export and a 23-case unit-test suite.

**Python · Flask · OpenCV · face-recognition · NumPy**

## ADDITIONAL INFORMATION

- **Languages:** English and Urdu.
- **Open source:** 29 public repositories at github.com/MrYaseen0, including MIT-licensed tools with live demos.
- **References:** available on request.
